

**Neuromodulation Intensive Prepaid Package** **\$5,295**

This is the prepaid nonrefundable cost of services for people who need neuromodulation, but do not have insurance coverage. The fee must be paid to CIP prior to services being delivered.

<b>This package includes:</b>	<b>CIP Cost</b>
Intake Session	\$300
3 qEEGs without a written report	\$900
Neurologist written report	\$250
Pretreatment IVA Continuous Performance Test	\$200
20 Sessions of Neuromodulation	\$4,400
<b>Total</b>	<b>\$6,000</b>

The prepaid package saves \$705 upfront. A typical length of Neuromodulation is 40 sessions and a qEEG is done after every set of 10 sessions to statistically monitor progress. This package can be renewed for extending treatment.
