

Neuromodulation Intensive Package Pricing**\$6,600.**

This is the prepaid non-refundable cost of services for people who would like to pursue brain mapping and neuromodulation. This fee can be paid to CIP in the form of a check prior to delivering services or a credit card can be used, but there is a 3.75% fee for using a credit or debit card.

Note that this package is for 20 sessions and the average length of treatment is 40 sessions.

This package includes:**CIP cost**

History/Initial intake session	\$300
3 QEEG's	\$300 x 3 = \$900
The initial QEEG requires a one-time consultation with Dr. Turner, a neurologist, who provides a report.	
Dr. Turner Report	\$250
3 ERP's (Event Related Potential)	\$250 x 3 = \$750
20 sessions of Neuromodulation	\$220 x 20 = \$4400.

Total:**\$6,600.**

There are other costs for diagnostics associated with beginning treatment at CIP which may be ordered by your clinician and are not included in the cost of this package.

A typical length of neuromodulation treatment is between 20 and 40 treatment sessions.

A QEEG is typically done every 10 sessions. The QEEG allows us to see how your brain responds to the treatment and indicates if the protocol needs to be modified.

Intensive pricing is discounted only if paid in full:**\$5,545****You save: \$1,055**

Initial Intake session = \$250

QEEG's = \$900 (3 @ \$300)

Dr. Turner Report = \$250

ERP's = \$500 (2 @ \$250, and the third ERP is free!)

Neuromodulation treatment = \$3,645 (20 sessions @ \$182.25 each)
